MD. SHEAM NASEMUR RAHMAN

Full-Stack Software Developer

+880 1742-218274 • sheam.rahman99@gmail.com • Bogura, Bangladesh
Portfolio: sheamportfolio.lovable.app • LinkedIn • GitHub

PROFESSIONAL SUMMARY

Full-Stack Software Developer and CSE Graduate with a results-driven mindset and hands-on experience building scalable web applications. Skilled in React, TypeScript, Node.js, Express, PostgreSQL, and MongoDB. Demonstrated success in building production-ready user authentication systems, designing database schema architectures, and deploying to the cloud on Vercel.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, SQL, Java, HTML5, CSS3
- **Frontend Development:** React, TanStack Start, Tailwind CSS, RESTful API Integration, Dynamic UI Architecture
- **Backend & Databases:** Node.js, Express.js, PostgreSQL, MongoDB (Atlas/Compass), Supabase Auth, Firebase
- **Developer Tools & Cloud:** Git, GitHub, Vercel, Postman, PythonAnywhere, Docker (Basic)
- **Core CS Foundations:** Database Schema Architecture, Object-Oriented Programming (OOP), Data Structures & Algorithms

COMMERCIAL EXPERIENCE

Software Developer **Mar 2026 – Present**
ICT HAX Bogura, Bangladesh

- Architected and deployed production features for web applications using React, TypeScript, and TanStack Start.
- Integrated Supabase Authentication, successfully managing secure user sessions for 50+ active beta users.
- Optimized PostgreSQL database query execution flows and schema relations, enhancing overall system responsiveness.
- Conducted API endpoint testing using Postman to ensure high data integrity across client-server interactions.

KEY PROJECTS

Talent BD – Full-Stack Career Platform **2026**
Tech Stack: React, TypeScript, PostgreSQL, Supabase Auth, Vercel [Live Demo]

- Engineered a full-stack job platform with secure authentication, user roles, and optimized PostgreSQL database queries.
- Configured CI/CD deployment pipelines on Vercel, achieving high uptime and responsive performance.

Scalable E-Commerce Engine **2025**
Tech Stack: Python, Django, SQL, HTML5/CSS3 [GitHub Repository]

- Built an e-commerce backend utilizing Django, featuring custom session-based cart logic and dynamic product filtering.
- Applied Object-Oriented Programming (OOP) design patterns to maintain modular code structure and clean data flow.

EDUCATION

Bachelor of Science in Computer Science & Engineering **Graduated: 2026**
Pundra University of Science and Technology **CGPA: 3.41**

- **Academic Honors:** Awarded Distinction in 1st Semester; Active Hackathon Participant.
- **Key Coursework:** Database Management Systems, Software Engineering, Object-Oriented Programming, Data Structures & Algorithms, Computer Networks.

CERTIFICATIONS

Web Development Professional Certification Jun 2026 – Aug 2026
ICT HAX – Practical Full-Stack Web Development Training
